### A FEVERISH STOCK MARKET.

Gold, Bonds and Other Securities Awaiting National Legislation.

WEDNESDAY. April 8-6 P. M. In all the turbulent periods through which our country has passed there never has been a time when Congress so completely as now ignored the expressed will of the people, discarded precedents and turned its back upon the sagacious counsels of the trained representatives of public senti-ment. In the present instance the issue involved is the management of that most delicate of all subjects, the interests of commerce. Bank officers, Boards of Trade, Governors and Legislatures have uttered their words of warning. Facts and figures have been evolved, the force of which, it would seem that nothing can gainsay; yet Congressmen, obedient only to the ignorant clamor of constituents, if not to something worse in the shape of personal interest in the manipulations of the stock or real estate markets, nave deliberately shut their eyes to the tremendous evils which their action will surely entail, dishonored the nation and forsworn their piedges to support the constitution. It is only a little while ago that the man Morton, who assumes to be the leader of the inflationists, himself announced on the floor of the United States Senate that "we have a debased and depreciated currency, not worth more than seventy cents on the deliar." This, he said, "lies at the foundation of all our financial troubles, and I believe the way to begin is to begin at the foundation and take some step directly in the direction of a resumption of specie payments. Let us say to-day that we piedge the surplus gold and that which shall accumulate this financial year and the next to the redemption of the legal tender notes, and the very moment that deciaration becomes a law, in my opinion, the premium on gold will go down one-half." This is the testimony of

Money to-day loaned, as usual, at 4 and 5 per cent on call, closing at 3 and 4 per cent. An abundance is awaiting investment in legitimate industrial enterprises, but while Congress continnes to tinker with the laws of trade, capitalists will continue to hold their usable wealth well in hand and allow millions to be quoted simply in connection with call loans or the idle assets of banks. Foreign exchange continues dult and steady at 4.85 for prime bankers' 60 days sterling and 4.88 for demand. With a slight concession for actual business, communercial bills are scarce; continental quiet but firm; Reichmarks, 95% a 95% and 96% a 96%; cables, 96% a 96%; prime Paris, 5.19% and 5.13%.
THE UNITED STATES TREASURY.

The customs receipts to-day were \$280,000. The Assistant treasurer to-day paid out \$25,000 on account of interest and \$15,000 in redemption of 5-20

Gold opened at 113% and subsequently advanced to 113%. Afterwards it yielded to pressure and closed at the opening price. The carrying rates were 2%, 2, 3% and 4 per cent.

continues under the influences that have already been described. Operators are waiting on the fur-ther action of Congress, and meanwhile there is little disposition to engage in new ventures. The heavy holders have distributed, while the lesser workers have heard the note of caution, and are trimming their sails accordingly. A very considerable bear interest is reported, but there is likewise to be recorded in connection with the market an unusual amount of fever and uncertainty. If a vote could be taken on the street it would indicate lower prices. Congress has not only demoralized the general situation, but disturbed the basis of individual judgment. It is intimated that the Union Pacific, Panama and Pacific Mail companies are about to enter into copartnership for certain purposes, and that some of the Western roads will be solicited to join the combination, the object being to secure control of freight and a monopoly of prices. It may be found that the price of stocks has likewise something to do with the publicity of the proposition. In a market so stagnant as the one daily reported we may well expect extraordinary efforts to create

Whiskey Stoady.

WEDNESDAY, April 8—6 P. M.

The trade movement was moderate, especially in merchandise for immediate delivery. There was rather more disposition to purchase contracts ahead, but prices were without material change. At the Produce Exchange flour was in fair demand and firmer. Wheat was wanted to some extent for export, and the earlier purchases were at full prices, but the market subsequently became tame and closed somewhat lower. Corn was fairly active and firmer but at the close the extreme prices could not be realized, particularly as luture sales were considerably below those now current. Oats were also ably below those now current. Oats were also firmer, under a fair demand. Whiskey was quiet. Pork was sold to some extent for future delivery at rather easier terms. Lard sold pretty freely at full prices for future delivery, but closed a shade easier. Groceries remained quiet, with the exception of sugar, which met with a fair demand at steady prices. Cotton was quiet, and forward deliveries declined about 1.16c. per lb. Petroleum ruled about steady and met with a moderate demand. There was more business done in naval stores. demand. There was more business done in naval stores at easier figures for spirits of turgentine and about steady prices for rosin. Freights were quiet for accommodation on the berth, but tonnage for charter was in demand at previous rates.

Corror on the spot was without any demand from ex-porters and only a limited demand from spinners. Some inquiry prevailed from speculators, who were compelled to pay full prices. The market closed dull and easier. For ruture delivery the transactions showed a docline of

Meeting of the Board of Estimate and Apportionment—Further Issues of City Bonds Authorized.

Bonds Authorized.

The Board of Estimate and Apportionment met yesterday, all the members being present and Mayor Havemeyer presiding.

The Comptroller offered a resolution authorizing the issue of \$143,000 in assessment bonds to pay bonds maturing April 15, and \$661,000 to redeem stock maturing May 1, 1874, which was adopted.

for the extension of Madison avenue and \$65,000 for the opening of 110th street.

Commissioner Van Nort sent in a communication requesting an additional appropriation of \$300,000, as authorized by law, for laying pipes to extend the distribution of Croton water to charitable institutions on the islands, which was laid over, as was also a communication from the Department of Parks, requesting an issue of \$250,000 of City Parks Improvement stock to pay for improvements to be made on public parks and squares. The following communication was read:—

To the Board of Estimate and Appointionment:—
There are many worthy charitable societies and institutions in this city, such as hospitals, dispensaries and informatics, which are devoted to the care of the auffering and needy gratuitously, and require aid from the city to enable them to carry on their work of benevolence and charity. The power to extend aid to institutions of this character was summarily out off by the Legislature of last session, and I think that measures should be taken to obtain legislative authority to set aside the sum of \$100,000 out of the fund derived from Henness granted by the Commissioners of Excise, to be appropriated and Apportuoument among such charitable institutions as they may deem most deserving of such aid; such institutions to be those that extend aid, lood, sheller as they may deem most deserving of such aid; such institutions to be those that extend aid, lood, sheller as altery may deem most deserving of such aid; such institutions to be annexed resolution, which was adopted:—

In accordance with this suggestion the Mayor presented the annexed resolution, which was adopted:—
